

# Shellby Goeschel

Mrs. Cindy Zain, Business, Management, Marketing & Technology teacher, has selected Shellby Goeschel as Outstanding Information Technology student of the 2nd quarter for the 2012-2013 school year.

Shellby is a two-hour student in the afternoon Information Technology class. I chose Shellby because of her positive attitude and her willingness to learn new concepts and ideas. When the students in class created their own web site, Shellby wasn't satisfied to have just the minimum requirements on her site. She wanted her site to "stand out" and learned how to incorporate other attributes into her site that we had not covered yet in class. She wanted to embed YouTube videos into her site, so together we found out how to easily do that. She was also very creative with her use of images, lists, and tables. The result was a web site that was very professional and attractive to look at.

Shellby is also a very hard worker and usually finishes her assignments before anyone else in class. When she finishes her assignments, she isn't satisfied to just sit back and relax; she either starts on the next assignment for my class or goes to Mr. Zain's room to work on her projects in Drafting/Design.

It is a pleasure to have Shellby in class this year. It is always refreshing to have a student who wants to go "above and beyond" what is required. She is a very talented young lady and I am sure she will be very successful in whatever she chooses to do in life.

Congratulations Shellby  
On being the Outstanding Student of the Quarter in  
Information Technology!

# Anna Olson

Mrs. Diane Harrington,  
Business, Management,  
Marketing & Technology  
teacher, has selected  
Anna Olson  
as Outstanding  
Administrative Services  
student of the  
2nd quarter for the  
2012-2013 school year.

Anna has been a member of my class for three years. Her skills in Microsoft Office 2010 are certainly at the expert level. She is currently Microsoft Office Specialist Certified in Word. She is the type of student who is self-motivated and works hard each and every day with an excellent attitude.

Anna is a four-year member of Business Professionals of America (BPA). During her junior and senior years, she has served as Co-Treasurer of BPA. She has been a four-year regional winner, two-year State and two-year National winner as well. At Regional Leadership Conference held in January of this year, Anna placed in five events. She earned 1<sup>st</sup> place in Advanced Office Systems and Procedures as well as Project Management Concepts, 2<sup>nd</sup> place in Administrative Support Concepts and Insurance Concepts. In addition, she earned a 4<sup>th</sup> place in Management, Marketing and Human Resource Concepts. I have no doubt Anna will be representing Sault Area Career Center at the national level again this year.

---

Congratulations Anna  
On being the Outstanding Student of the Quarter in  
Administrative Services!

# Lauren Malaska

Mrs. Jo Anne Lussier, Business, Management, Marketing and Technology teacher in Marketing Sales & Services, has selected Lauren Malaska as Outstanding Marketing Sales & Services student of the 2<sup>nd</sup> quarter for the 2012-2013 school year.

Lauren is a second year marketing student, who has proven to be very dedicated and focused. Lauren has taken the lead with our on-line store this year and has continued to bring her creative and artistic abilities to the forefront of the class. She was responsible for the new Fan T design this year and played an important role in our “bundle” promotions.

She has been called on to take a leadership role as a second year student. Lauren never shies away from a challenge and has a great deal of determination. She has had to continue to challenge herself and try new things, while still bringing the same commitment to excellence that she has always had. She has been a pleasure to have in the program for the past two years and I look forward to seeing what path she chooses in the future, as I know she will be successful in any field she picks.

Lauren is a great asset to our program and to our Career Center.

Congratulations Lauren  
On being the Outstanding Student of the Quarter in  
Marketing Sales & Services!

# Alaina Grenier

Mrs. Heather Suggitt, Business, Management, Marketing & Technology teacher in Accounting/Finance, has selected Alaina Grenier as Outstanding Accounting/Finance student of the 2nd quarter of the 2012-2013 school year.

Alaina is a senior in her 1<sup>st</sup> year of Accounting. She is enrolled in a two-hour block, in which one hour she is learning the first year accounting and the second hour she chooses job titles to complete for her Career Center Certificate. Alaina has caught on quickly to new concepts and strives every day to improve. She is very detail-oriented and thorough with her work. Alaina is always willing to lend a hand whether it is to help another student or complete a task for a teacher.

Alaina is also a competitive member of Business Professionals of America (BPA). She competed at the regional level in Escanaba recently and placed 4<sup>th</sup> in Fundamental Accounting. Alaina will be attending BPA State Conference in March to continue competing. Alaina puts her best effort toward everything she does and I know she will be successful at all she chooses to do.

Congratulations Alaina  
On being the Outstanding Student of the Quarter in  
Accounting/Finance!

# Nicholas Horton

Mr. Abe Zain, Drafting & Design Technology teacher, has selected Nicholas Horton as Outstanding Drafting & Design Technology student of the 2nd quarter for the 2012-2013 school year.

This is Nick's first year in Drafting & Design. He is a self-directed, hardworking young man. He has worked diligently on Auto-Cad Inventor and has completed almost an entire year's worth of work in 18 weeks. Nick is also developing his skills programing the Plasma Cutter with the assistance of another drafting student. Nick's skills in Welding & Brazing have also given him an edge as he has the ability to apply his newly acquired drafting knowledge with his welding skills bringing him full circle in his career center experience. Nick's maturity and work ethic will carry him forward through college and his future career.

Congratulations Nicholas  
On being the Outstanding Student of the Quarter in  
Drafting & Design Technology!

# Conner Langendorf

Mr. Abe Zain,  
Work-based Learning  
Coordinator, has  
selected as  
Conner Langendorf  
Outstanding Work-  
based Learning student  
of the 2nd quarter for  
the  
2012-2013  
school year.

Conner is currently working for Albert Heating and Cooling. Conner has a great work ethic and is willing to learn and develop his skills at all times. He is seen as a leader by his peers and Conner helps anyone as the need presents itself. Conner's employer stated that he has become self-sufficient in the shop and can create most sheet metal parts without assistance. He is also trusted with the company truck. Conner is an outstanding young man who makes the Career Center shine in our community. Conner started in our Drafting CAD program in the area of architecture. He then moved on to the Construction Trades department to get a broader knowledge of this area before landing a spot at Albert Heating & Cooling learning another facet of architecture/building field in the application of Heating, Ventilation and Air Conditioning (HVAC). His maturity and presence is second to none and these are a few reasons that Conner Langendorf has been selected as the Work-based Learning Student of the quarter.

Congratulations Conner  
On being the Outstanding Student of the Quarter in  
Work-based Learning!

# Kathryn Nicholls

Mrs. Elena Lehocky, Allied Health Technology teacher, has selected Kathryn Nicholls as the Outstanding Allied Health student of the 2<sup>nd</sup> quarter for the 2012-2013 school year.

Katie Nicholls is in her second year in the Allied Health program. Katie is highly organized, an excellent communicator, and demonstrates outstanding leadership in the classroom.

If there is a job to be done, Katie can be counted on to complete it quickly and meticulously. She is highly motivated, mature and self-directed. She asks appropriate questions and looks for guidance when needed. Katie has a habit of being prepared for meetings ahead of time as our Health Occupations Students of America (HOSA) president. The agenda is always discussed with me at least a few days in advance and never at the last minute.

Katie is respectful of both staff and students. Her behavior is mature beyond her age in years. She exhibits a kind and patient demeanor in her interactions with others. She is an absolute pleasure to work with!

As our HOSA president, Katie handles herself smoothly and treats all members with the utmost respect. She listens to member input and responds constructively. Katie is truly an outstanding student, leader, and human being. I believe that she would be an extremely valuable addition to any employer.

Congratulations Katie  
On being the Outstanding Student of the Quarter in  
Allied Health Technology!

# Eric Farlow

Mr. Trevor Paulus  
Construction  
Technology teacher,  
has selected  
Eric Farlow  
as the Outstanding  
Construction  
Technology student of  
the 2nd quarter for the  
2012-2013  
school year.

Mr. Farlow has been one of the hardest working, most dependable students in my classroom the entire semester. He has a great attitude and gets hands-on with every project we do in the shop. He's been on our "cut-away house" module from the beginning, and as such he's had the opportunity to try his hand at framing, roofing, plumbing, electrical, and drywall, and has excelled at each. Eric also hand-built the kitchen cabinet for the module and did a great job on it.

With his quiet, hard-working personality and his nose to the grindstone mentality in the shop I have no doubt that this young man has a bright future ahead of him. I'm lucky to have had the chance to interact with Eric in the classroom, and I'm happy to be able to give him the credit he very much deserves.

Congratulations Eric  
On being the Outstanding Student of the Quarter in  
Construction Technology

# Addison Kennedy

Mr. Greg Rambo  
Welding/Brazing  
Technology teacher has  
selected  
Addison Kennedy as  
the Outstanding  
Welding/Brazing  
Technology student of  
the 2nd quarter for the  
2012-2013 school year.

Addison is a second year Welding Technology student who has continued to work very hard on projects in the classroom. This year alone he has had a hand on welding projects for Sault Area High School that included benches for the lobby and vents for the gymnasium, he has helped complete trivets as a successful fundraising projects for the welding program, and he has helped with private projects that the classroom has undertaken. These projects required him to use the most difficult weld of Gas Tungsten Arc Welding (GTAW). In addition, Addison has completed the first semester of welding by achieving the highest test score on both written and practical exams.

Congratulations Addison  
On being the Outstanding Student of the Quarter in  
Welding/Brazing Technology!

# Joshua Mullin

Mr. Tim Strader,  
Automotive Technology  
teacher, has selected  
Joshua Mullin as  
the Outstanding  
Automotive Technology  
student of the 2nd  
quarter for the  
2012-2013 school year.

Josh, a senior at Sault Area High School, continues to demonstrate excellent work and does not shy away from it in the Automotive program. He would much rather work on a project, no matter what it is, than sit and do nothing. He follows direction well and always gets the job done. I have no doubt he will do well in the military after he graduates and will go on to go great things with his life.

---

Congratulations Joshua  
On being the Outstanding Student of the Quarter in  
Automotive Technology!

# Roger Ayers

Mr. Gary Herschell,  
Machine Tool Technology  
teacher, has selected  
Roger Ayers as  
the Outstanding Machine  
Tool student of the 2nd  
quarter for the  
2012-2013 school year.

Roger Ayers is a junior in the Machine Tool Technology Class. This is Roger's first year in the program and he has rapidly excelled in all aspects of the trade. Roger has a real positive attitude when working in the shop; this is represented through a "won't fail" attitude which makes him an excellent asset to the machine tool technology classroom. Along with completing all tasks asked of him in the classroom setting, Roger also finds time to excel on our Robotics team. He is an integral part of the team and spends a great deal of his time working in the machine shop making precision parts. Roger has a great opportunity ahead of him in and around this field, and I expect that he will achieve many things by the time he leaves secondary education.

Congratulations Roger  
On being the Outstanding Student of the Quarter in  
Machine Tool Technology!
